Message Application Guide

APPLICATION

What is something that comes to mind that might be considered common, but that’s really essential?

Read Ephesians 1:1-2. What attitude should you have toward what might be a familiar book if you want this important message to help you? What has been your functional attitude to God’s message (consider your emotions when things don’t go the way you’d want them to)?

The Ephesians were strong on doctrine yet weak on application. What’s the danger in being that way? How can our small group be stronger in this area?

What was Ephesus like as a city? With Easter coming, how can we maximize our influence as saints in our community?

Paul said that Christians have received grace and peace. What makes these two such an immense blessing? With whom do you need to live that out in the week to come?

Dr. Michael’s Assignment

- 1. Read Ephesians and Acts 18-20
- 2. Write down every spiritual blessing we have in Jesus
- 3. Mark every command you can find
- 4. Decide that you’re going to live in light of your spiritual wealth
