

STRANGERS

IN A STRANGE LAND

Elect Exiles

Dr. Jeff Bucknam | 1 Peter 1:1–2

1. The early church had to choose not to participate in some cultural activities due to their ties to idolatry. What things in our culture should Christians avoid due to their commitment to Christ?

2. How is Peter's story an encouragement for us? What about him should we emulate? What should we avoid?

3. Why do we struggle with being seen as odd in our society for our moral convictions? Why do we long for affirmation from the wider society? What kinds of things have seeking such affirmation led the church to abandon when they should've retained?

4. How does the doctrine of election make you feel? What questions does it raise in your mind? How would you answer those questions?
